

# Credit Unions and AppOne®

## Simplify and Accelerate Your Customer Funding

### Enjoy the advantages of being an AppOne-integrated lender

AppOne® is a centralized web-based platform that gives credit unions the ability to manage a network of dealerships, receive credit applications, and provide and control loan document preparation. You'll increase efficiency while reducing dealer funding time and compliance risk.

Recreational loans represents a large and growing portion of the indirect lending market, presenting a great opportunity for credit unions to reach new and existing members through the dealerships where they shop.

AppOne has developed the process and technology needed to help your credit union participate alongside traditional lenders.

### We make it easy.

- Tap into a network of RV, marine, and powersports dealers in your local lending market or across the country.
- Receive electronic credit applications via a direct connection to your LOS.
- Only receive credit applications that meet your minimum lending guidelines and membership requirements.
- Only pay for the loans you fund.
- Document loans on lender-specific 8.5" x 11" plain-paper loan documents containing the most up-to-date Bankers Systems forms and your credit union's necessary loan documents.
- Enter a new market in days, not months.

Let AppOne be part of your consumer lending program. We've specialized in working with recreational dealers since 1999 and have the experience, technology, and processes to help you successfully deliver top-notch service to your members.
